

MKC Training Services Limited

Title	Environmental Management & Sustainability Policy Statement			Ref. No	POL04
Approved by	SLT	Date	24/01/23	Issue	13

General statement

Overall responsibility for Environmental Management and Sustainability within MKC Training is vested in me by virtue of my appointment as Managing Director. MKC Training is an environmentally conscious organisation which acknowledges the impact that our operations may have on the environment. We have a clear and ambitious Carbon Reduction Plan to achieve Net Zero by 2050. Through our work in Defence, we also support local and national MOD sustainability strategies.

Our Objectives & Commitment

Our Sustainability Strategy 'three pillars' provide the framework for setting our objectives:

Create Awareness to improve understanding of environmental sustainability in order to influence future behaviours	Continually Act and Evolve to make training activities, resource use and assets sustainable	Consistently Monitor and Continuously Improve the environmental impact as well as the current and future social, economic and environmental threats
--	--	--

Through this Strategy, our Vision, Values and associated processes, we fully commit to:

- Protecting the environment within the scope of our business operations, including:
 - Achieving Net Carbon Zero by 2050
 - Minimising waste by reusing or recycling resources, and enhancing efficiency when refurbishing & replacing equipment / infrastructure
 - Taking action to eliminate or reduce, as far as practicable, pollution and any of our other potentially adverse environmental impacts
- Determining compliance obligations, ensuring operations are completed in accordance with them and evaluating how effectively we meet these obligations
- Implementing, maintaining and continually improving an ISO 14001 environmental management system to enhance environmental performance and sustainability
- Training, educating and informing our staff about environmental issues
- Ensuring that directors & managers are fully engaged in environmental issues
- Working in partnership with stakeholders, employers and the wider community by promoting environmental & sustainability principles and behaving in a considerate and socially responsible manner
- Completing internal audits systematically and correcting any non-conformities
- Ensuring effective and expedient incident control, investigation and reporting

Responsibilities

Directors, managers, the Environmental & Sustainability -Champion, -Steering Group and -Working Groups, and Energy Wardens have responsibilities for the implementation of the policy. All employees, employers and subcontractors are expected to co-operate and assist in the implementation, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment-related matter. This statement covers all sites on which the company carries out its activities, including remote learning / work activities. It will be reviewed annually and following any changes in legislation. Further Environmental Management and Sustainability arrangements are available through our SharePoint site.
